Dispersant

RD-9610

Features and Advantages:

RD-9610 is a mid-level polymer dispersant, which has good dispersing effect on carbon black, organic pigment and inorganic pigment in solvent based industrial paints and inks. Good versatility, and most of the resin system has a very good compatibility; For the dispersion of inorganic filler, it has the effect of obviously improving the stability of filler.

Product parameter:

Appearance	Brown viscous liquid
Active ingredient	99±1%
Specific gravity	0.95g/cm3
Colour (W. Gardner)	≤13
Boiling point	200℃
Flash point	258℃

Application scope:

1. Disperse grinding common carbon black, organic and inorganic color filler in industrial paint and other coating systems;

2. Disperse grinding carbon black, organic and inorganic pigments in a variety of ink systems;

3.PVC/PU color paste system organic pigment and carbon black dispersion.

Usage:

Dissolve RD-9610 in the mixture of grinding base material first, and then add pigment for grinding.

Packing:

25KG or 200KG/drum.

Storage:

Keep away from sources of fire and light; store in a dark place.
