## Defoamer

### RP-6695

#### Features and advantages:

- ◆ A variety of defoaming mechanisms, with excellent high potency, durability and compatibility;
- ◆ Good defoaming effect in all kinds of emulsion water-based pressure sensitive adhesive, paint and ink;
- ◆ Has good compatibility, will not cause the paint film fisheye, shrinkage;
- ◆ Effective not only during storage, but also under long-term pumping conditions.

#### Product specification:

appearance	White to yellowish turbid liquid
Active matter	100%
Viscosity (mpa.s 25°C)	200-1000
Specific gravity	0.86-0.94g/mL (20°C)
Main component	Special mineral oil, polyether
Water solubility	Easy emulsification in water

**Application:** acrylic acid, vinyl acetate, vinegar, propylene, styrene, copolymer emulsion coating, resin, adhesive

**Usage:** RP-6695 recommended dosage of 0.1%-0.5%, can be directly added, or can be diluted with water to add.

**Packing:** 25KG/180KG/850KG plastic drum packing

---

**Storage:** The shelf life of the product is 12 months (from the date of production) when the product is in an unopened original container and stored between  $-5^{\circ}\text{C}$  and  $+40^{\circ}\text{C}$
