

Emulsion

R1202

Features and advantages:

1. R1202 emulsion is a non-ionic oil-in-water emulsion based on paraffin modification. Used in architectural coatings, wood and furniture coatings, inks and varnish.
2. R1202 improves surface properties in water-based coatings and inks. The additive has a hydrophobic effect in waterborne coatings and improves anti-adhesion. It adds smoothness, scratch resistance, friction resistance and provides a soft touch.

Physical and chemical properties:

| | |
|------------------------|--------------|
| appearance | Milky liquid |
| Solid inclusion | 40% |
| pH value | 5-9 |
| Specific gravity, 25°C | About 1.0 |
| Emulsion type | nonionic |
| diluent | water |

Product Application:

The recommended dosage is 3-5% of the formula

Note: The above process is for reference only, the specific formula and process please be handled according to the sample results

Storage and storage period

Stored in an original unopened container at 5 ° C to 30 ° C, R1202 has a standard expiry date of 6 months from the production date. Please refer to the storage advice and expiration date on the package
