

Anti-graffiti and easy cleaning AIDS

RT-3156

Features and advantages:

- 1, Can help the coating to improve the water contact Angle.
- 2, Good compatibility of varnish.
3. Excellent hydrophobic and oily.
- 4, Excellent resistance to marker wipe, anti-adhesion.

Product specifications:

Appearance	Yellowish transparent liquid
Solvent	Dipropylene glycol methyl ether acetate
Density	1.00-1.04 g/ml
Viscosity	100-1000 mPa·s (rotary viscometer method)(25±0.2)°C
Active substance content	50%
Flash point	>80°C
Constituent	Silicone modified polyacrylate solution containing hydroxyl functional group

Application:

Solvent based coatings

Recommended dosage:

1-5% of total formula

Usage:

Can be added at any stage of the production process, including after addition.

Packing:

25kg/180kg. The product is not used completely, after use must cover tightly inside and outside.

Storage:

Store in unopened original package for 24 months. Products beyond the storage period can continue to be used after passing the inspection. Containers are not completely used and must be closed immediately after use.
